

# Animal Cognition

---

On May 2, 2018 IMC is hosting a half-day workshop on **animal cognition** that will explore how mental capacities of non-human animals are reflected in behavior. David Eilam from Tel Aviv University is a prize-winning international expert in animal behavior, who will be visiting IMC during week 18. Together with several Danish experts from the fields of behavioral biology, zoology and animal science, David will be discussing multiple perspectives on **animal cognition**. Everyone is welcome to participate.

Time	Title	Presenter
12:00-13:00	Welcome and lunch	Andreas Roepstorff
13:00-13:20	<i>Animal cognition in the field - interspecies aggregation and interaction in Corvid species</i>	Sussie Pagh
13:20-14:15	<i>Animal cognition from the perspective of behavior</i>	David Eilam
14:15-14:45	<i>Aalborg Zoo an experimental facility?</i>	Trine Hammer
14:45-15:15	<i>Animal behavior and stress biology</i>	Toke Schou
15:15-16:30	snacks and open discussion	Lars Bach
